Google Scholar: Profile

Education

Georgia Institute of Technology — Atlanta, USA
Doctor of Philosophy in Computer Science — Aug 2024–Present
Advisor: Alan Ritter

Korea University — Seoul, Korea
Master of Engineering in Software — Mar 2019–Aug 2021
Advisor: Jaewoo Kang

Korea University — Seoul, Korea
Bachelor of Economics in Statistics — Mar 2013–Feb 2019
Bachelor of Science in Computer Science & Engineering

Publications

Experience

Allen Institute for AI — Seattle, WA, USA
Research Intern — May 2026–Present

- Develop LLM-guided evolutionary search methods for inverse design in scientific and algorithmic discovery, including the discovery of novel algorithms and chemical candidates.
- Study search dynamics through factor analysis and credit assignment to identify which components and design choices contribute to successful optimization.

Georgia Institute of Technology — Atlanta, GA, USA
Graduate Research Assistant — Aug 2024–Present

- Develop reinforcement learning methods for LLM-based regression by optimizing predictive output distributions.
- Lead research on automated scientific literature analysis using LLMs to extract and aggregate experimental results and uncover insights from large-scale scientific evidence.

NAVER Corporation — Seongnam, South Korea
Applied Scientist — Jul 2021–Aug 2024

- Contributed to the development of the vision-language foundation model HyperCLOVA-X Vision, serving as sub-lead for visual entity recognition, visual instruction following, and symbolic image understanding.
- Designed and implemented an open-ended evaluation framework for assessing multimodal capabilities.
- Contributed to a general-domain text embedding API by training multilingual sentence encoders for retrieval and clustering and developing retrieval-augmented methods for zero-shot classification.

University of Washington — Seattle, WA, USA
Research Intern — Feb 2021–Jul 2021

- Developed a fact-verification dataset from information-seeking question-answer pairs and investigated noisy-channel methods for question answering and natural language inference.

NAVER Corporation — Seongnam, South Korea
Research Intern — Jul 2020–Dec 2020

- Investigated data augmentation methods for few-shot semi-supervised text classification and analyzed their effectiveness.

Korea University — Seoul, South Korea
M.S. Researcher — Jun 2018–Aug 2021

- Researched test-time query representation optimization for dense retrieval.
- Developed consistency and adversarial training methods for conversational question answering and robust neural machine translation.

Scholarships and Awards

- Full Graduate Scholarship, Korea University — Mar 2019–Jun 2021
- Great Honor in Graduation, Korea University — Feb 2019
- Full Undergraduate Scholarship, Korea University — Mar 2013–Feb 2019
- Anam Scholarship (Highest Distinction at Admission), Korea University — Mar 2013

Service

Conference Reviewer — 2021–Present
ACL, EMNLP, NAACL, ARR, NeurIPS, ICML, ICLR

Mandatory Military Service — Apr 2014–Apr 2016
Republic of Korea Air Force
